

# STONE WASH SOLUTION

ARTNR:1127 | HIGH ALKALINE CLEANER

Very efficient and versatile alkaline cleaner. Contamination from fat, soot and oil are quickly cleaned. Especially suited for tombstones and other stone materials. Easily biodegradable.

## Instructions for use

Apply **STONE WASH SOLUTION** with a brush or spray on with a low pressure sprayer. Be careful and use protective gear since **STONE WASH SOLUTION** is corrosive. Allow to dwell for 5-15 minutes depending on contamination. Rub the surface with a brush occasionally. For larger objects or if necessary a high pressure washer (50-100 bar) with hot water (50°C) can be used. **N.B.!** Gilded or painted text can be damaged. Make a sample if there are uncertainties.

## Doseage

**STONE WASH SOLUTION** is delivered as ready to use and should not be diluted with water.

## Consumption

0,2 - 0,5 litre/m<sup>2</sup>

## Technical data

- Yellow to brownish fluid.
- Container: 5 or 25 litre jerry can.
- Density: 1,06 kg/litre.
- pH about 14.
- Contain potassium hydroxide, alcohol ethoxilate, hexyl-D-glucoside.

## Storage

Keep above freezing in closed original container.

## Shelf life

About 24 months in sealed container.

## Protective gear

Extra care needs to be taken. **STONE WASH SOLUTION** is **CORROSIVE**. Rinse with lots of water and contact a hospital or doctor if in the eyes. If on the skin rinse with lots of water. Use protective clothing, protective gloves, and protective glasses.

## Signal word: Danger

**Causes severe skin burn and eye damage.**

## Dangerous goods according to ADR.
