

GRAFFITI AWAY

ITEM NO.: 3624 | GRAFFITI REMOVER

Graffiti Away is an effective and gentle graffiti remover, specially formulated for hard and painted surfaces. The product quickly removes spray and marker graffiti without damaging the surface and is easy to use, even on delicate surfaces.

It is **easily biodegradable** and also carries the **Good Environmental Choice** label .

Graffiti Away has been developed for removing graffiti from painted **hard surfaces**, primarily painted **metal surfaces and other delicate surfaces**.

Please note! Do not use on plexiglass or plastic. Instead, use [AGS 560 Plexi Clean on these surfaces](#). We recommend testing the product on a small area of the surface first.

HERE'S HOW TO DO IT

Painted metal surfaces (trains, buses, vehicles)

- Apply **Graffiti Away** directly to the surface and wipe off with a clean cloth or absorbent paper. Rinse the surface with water or an all-purpose cleaner.

Other painted delicate surfaces

- Apply **Graffiti Away** to a clean cloth or absorbent paper and wipe away the graffiti.
- Change to a clean surface frequently to prevent the dissolved paint from spreading.
- Any greasy film can easily be wiped away with a dry cloth.
- The dissolution process is halted by adding water.

Mind the environment: don't use more than necessary.

Dosage

Use undiluted.

Consumption

0.2–0.5 litres per square metre.

Storage

Store in a frost-free place in the sealed original packaging.

Sustainability

Approximately 24 months when unopened.

Precautionary measures

Wear protective gloves and safety goggles.

Technical specifications

- Appearance: A yellowish, thin liquid.
- Scent: Mild
- Density: 1.05 kg/litre.
- Packaging: 750ml.
- Does not contain any substances subject to label requirements.
- Not classified as dangerous goods.
- Further information: See the safety data sheet (SDS)
